

# WRETCHED DEMESNE

## Scenario 01: The Cave — Beta Print-and-Play · DODGE 0.2.1

This is the Implementor review build. Game content comes from the Scenario 01 source declared by the active DODGE 0.2.1 document. Cut on card borders. No artwork is required for this functional prototype.

### SETUP

- Place Cave Mouth.
- Shuffle remaining room cards; place Ancient Relay in bottom 3 cards.
- Each player chooses one crew role and its 10-card starter deck.
- Shuffle each deck and draw 5.
- Set shared Ammo to 8, Scrap to 0, Threat to 0.
- Shuffle encounter and salvage decks.

### OBJECTIVE

Explore the cave system, recover the Ancient Power Cell, activate the Ancient Relay, and return at least one crew member to the Cave Mouth alive.

### WIN

Ancient Relay activated and at least one crew extracts.

### LOSS

- All active crew are incapacitated.
- Threat reaches 12 and no crew extracts before the end of that round.

### CORE RULES

**Hand Size:** 5

**Actions Per Turn:** 3

**Deck Size:** 10

**Starting Health:** 8

**Defense Rule:** Damage = max(0, attack - defense).

**Threat:** Threat starts at 0 and maxes at 12. At 4: Spawn one Small Spider in the nearest revealed empty room. At 8: Spawn one Large Spider in the nearest revealed empty room. At 12: The expedition is overrun; crew must extract this round or lose.

**Noise:** After a noisy attack, add its Noise to Threat. If an unrevealed adjacent room exists, reveal its encounter.

**Ammo:** Ammo is a shared counter. Firearms spend listed ammo; Reload cards restore ammo.

**Search:** Each searchable room can be searched once; draw one salvage card.

**Spider Feeding:** At Enemy phase, a spider sharing a room with a Spider Corpse may consume one. Small becomes Fed (+1 max/current Health); Large becomes Fed and heals 1 each End phase. A Fed spider consuming a second corpse becomes a Chrysalis. Chrysalis hatches next End phase: Small lineage → Large; Large lineage → Alpha.

**Retreat:** From Entrance, spend 1 action to extract. Extracted crew keep salvage. Scenario succeeds only after the Ancient Relay is activated and at least one crew extracts.

# HEALTH REPRESENTATION LAB

Selected by wretched-beta-pnp-health-crew-card.dodge-export.json: **Crew reference card with marker**. All variants bind the same DODGE Health state; this page changes representation only.
